

Model: FC18D6CWD

CHEST FREEZER

33.4"

66.1"

With a huge 17.7 cubic feet capacity, this Hisense convertible chest freezer has a capacity to meet your entire family's needs. Featuring adjustable temperature on the outside and equipped with LED lighting for visibility on the inside. The multi-sealed door design and Aluminum inner liner makes cleaning simple.

WARRANTY

One (1 Year)

GARAGE READY

Temperature fluctuation in any environment is no longer an issue as this freezer operates perfectly under variable conditions: temperatures as low as 0°F, and high as to 120°F , making it the ideal choice to be kept in basement and garage.

360 DEGREE COOLING

This Hisense chest freezer has a D-Type cooling pipe, which has more surface contact with the cabinet, enabling efficient exchange of heat between the inner wall and the evaporate pipe helping the freezer get colder faster than traditional freezers.

LED LIGHTING

Makes it easier to find what you're looking for in this large capacity chest freezer. The indicator light reassures you that power is supplied to the freezer. Light inside and light outside means you've got yourself a cool and convenient working freezer.

FRESHNESS UP TO 135 HOURS

The chest freezer retains 0 degree inside for up to 135 hours after powering off, even with fully loaded capacity. Power outages don't have to mean automatic waste.

Convertible Zone

By changing the mechanical control setting, you can adapt the freezer to operating at refrigerator-like temperature.

CASTER WHEELS

4 caster wheels offers flexibility to adjust your chest freezer anywhere, from your basement to your garage.
